

# Motorola V2397 Back Cover Replacement

Use this guide if you drop your phone and crack the back of your case.

Written By: Chris

## Step 1 — Battery

- Press and hold the button on the battery cover
- Pull the battery cover down and out to remove it

## Step 2

- Remove the batteries by pulling them away from the phone

## Step 3 — Back Cover

- Using the Torx T4 screwdriver remove the six screws highlighted in the picture to the left

## Step 4

- Use your fingers or a spudger to remove the back cover

To reassemble your device, follow these instructions in reverse order.
